Gabriella Kalapos, Clean Air Partnership (CAP)

## HOW CAN A MUNICIPALITY INCREASE ITS RESILIENCE TO EXTREME WEATHER EVENTS?

With respect to your own municipality:

- What extreme weather events have occurred in the past?  
I.e.: flooding, extreme heat, ice storms, tornadoes
- What advance warning systems are in place for extreme weather events?
- What systems are/ have been in place to respond to impacts of extreme weather events?
- Have these systems proved successful in the past? Have they required any improvements?

# WEBINAR 2

- ROUNDTABLE DISCUSSION

## NEXT WEBINAR

### WEBINAR 3: *Legal and Financial Implications of Climate Change for Municipalities*

FEBRUARY 6<sup>TH</sup> , 2:00 pm EST
